ESG	Adani Airport Holdings Limited Water Stewardship Policy	Doc No: ESG/PLCY/05
		Revision No: Original Version
		Issue Date: 01-01-2025

Water is critical to both mitigating and adapting to the effects of climate change. We at AAHL also consider water as a crucial shared natural resource and its responsible consumption is one of the key drivers of innovation and sustainable economic prosperity of our businesses.

Protecting and conserving water resources through prudent and effective water management practices and governance systems are a priority for AAHL and integral to our commitment towards water stewardship.

All business managed by AAHL are committed to -

- Maintain legal compliance of water related applicable laws and regulations.
- Utilize water resources efficiently through effective and economically viable management systems
- Collect data on internal water performance, minimize freshwater withdrawal by Water Management, using recycled water and use of alternative water sources like rainwater harvesting wherever possible
- Ensure that wastewater generated through our operations is fully treated and utilized in our operations or other activities to the extent possible
- Identify water-related business risks and opportunities and develop action plans for mitigating the risks to attain water positivity.
- Develop and implement water strategies for the business and its value chain through an effective engagement with stakeholders to increase awareness,
- Measure, Monitor, and review the performance related to water stewardship of the organization in accordance with this policy at regular intervals and undertake audit (internal/ external) of the performance before communicating to relevant stakeholder.
- Expand access to clean, sufficient and affordable water and sanitation resources for all our employees.
- Building capacities to analyze and respond to watershed risk across all our operations and value chain,
- Collaborating with policy maker, NGOs and encourage them to protect and restore watershed of our operation and value chain.

Responsible and sustainable use of water resources is necessary for improving the sustainability performance of AAHL. All stakeholders of AAHL will endeavour to be committed to the fulfilment of the objectives outlined in this policy.

The policy shall be reviewed periodically for its appropriateness and updated as necessary.
